of Wales Hospice

# Family Support Services

How we can help

# Family Support Services

Family Support Services provide support for patients, families, children, young people, and significant others before and after bereavement.

Our experienced practitioners offer counselling, social work, emotional, chaplaincy and ad hoc support. Services can be provided face-to-face in the hospice, by telephone, or online.

To discuss Family Support Services criteria and how we can help, please call 0141 429 5599 or email [info@ppwh.org.uk](mailto:info@ppwh.org.uk)
